

**If it's a Deere
it's Right**

JOHN DEERE
MOLINE, ILL.

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

**Standard of the World
For Over 60 Years**

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first slab of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburg, in 1848. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"If it's a Deere—it's Right."

We make over 1000 styles of plows, each as good as it can be made—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.

TRAINING SCHOOL IS READY TO COMMENCE

New County Institution For Teachers
Will Open Second Monday in
September.

Circulars are being mailed announcing the opening of the Oneida County Teachers' Training School September 12th. This school is one of twenty six such schools in the state of Wisconsin, organized for the purpose of training teachers for the common schools.

Experience has shown that those who go out to teach from the State Normal Schools and University seldom get back to the rural school. As a result, the District schools have been taught in recent years by inexperienced boys or girls. Oneida County appreciates this fact and as a result the Board of Supervisors authorized a year ago the opening of a school the object of which was to train teachers for this county's schools. Messrs. Arthur Taylor, A. W. Brown and Co. Sup. F. A. Lowell were selected for the Training School Board. They were authorized to remodel the old court house, adopt a course of study; buy the necessary furniture, apparatus and books; and engage the required teachers.

In accordance with this the old Court House at Rhinelander has been remodeled into an ideal home for the Oneida County's Teachers' Training School. It has been equipped with the best furniture, maps, charts, books, etc., obtainable. It has been the aim of the County Teachers' Training School Board to equip the school in such a manner that it will be an inspiration to work in it and a model for the schools of Oneida County.

The necessary teachers have been engaged and the school will be ready to open its doors on September 12.

The school offers two courses—a two year course for the common school graduate and of others similar is prepared, and a one year course, which is the Senior year of the two year course, for persons holding a teacher's certificate, high school graduates or students who have finished at least two years of a high school course.

These courses are offered with the belief that the work especially fits a person for the high calling of a teacher of a rural school, and that they are the result of the latest educational thought.

The following classes of people may be admitted to the school.

(a.) High School graduates from any good High School having a four year Course of Study.

(b.) Graduates from any State Graded School.

(c.) Graduates from the Common Schools of the State who wish to fit themselves to teach school.

(d.) Holders of Teachers' Certificates.

There are no tuition fees to be paid; the students will furnish their own board, clothes, pencils and tablets. The board loans to them all necessary text and reference books. On the reading tables are good magazines, newspapers and teachers' journals for their use.

Students will be accepted from other counties which do not have a Training School. The law requires the Board of Supervisors of such counties to pay a tuition fee of 75 cents a month for all students from those counties who attend a Training School.

The Board has engaged for Principals of the school B. Mack Dresden. Mr. Dresden has been educated in the schools of Germany and of this country, being a graduate of the Oshkosh Normal School, of Baldwin University and of Wooster University. He has taught all kinds of schools from the country school to the Normal School and comes highly recommended.

For assistant the Board has engaged Miss Margaret Sutton, a graduate of the Oshkosh Normal School and of Teachers' College, Columbia University. She has taught in Oshkosh and in Indianapolis and for the past two years has been assistant in the Lincoln County Teachers' Training School at Merrill. She is considered one of the strongest training teachers in the state.

The Principal, Mr. Dresden, will be in his office every forenoon, and at his home 134 N. Brown St., in the

Taxation Without Representation.

A CENTURY AND A THIRD AGO our forefathers fought and bled at Bunker Hill, Lexington, Concord, and a hundred battle fields that we should not be taxed without representation.

In that day our fathers fought for a principle, and it was worth while. Shall we preserve the principle, and shall we fight for it? Then the tariff was a tax. It is a tax now. Then the tariff was levied by King George and his ministers. Now it is levied by Aldrich and his minions.

Were you represented in the making of the Aldrich tariff? If so, how? The hearings were in secret. None but the Interests were heard. Your welfare was not considered. You are required to pay the tax.

A protective tariff should measure the difference between cost of production at home and abroad.

The Aldrich tariff is not such a tariff. It is designed to aid monopoly, not the laborer or the consumer. No attempt was made by Aldrich to ascertain the difference of cost of production at home and abroad.

The average duty on cotton goods under the Dingley tariff was 44 and 84-100 per cent. The Aldrich tariff advanced the rates throughout the cotton schedule, in some cases openly but in most instances through changes in classification or jokers, which frequently amount to as much as 100 per cent. over the Dingley law. Did your representative do that, or was it the representatives of the interests who did that? Did you want the tariff increased on your cotton goods or did you want it decreased? The cotton manufacturers testified in public that no increase was necessary. In private their personal representatives wrote the schedule.

The tax on cheap carpets is 136 per cent. The tax on cheap blankets is 165 per cent. Is that a tax on luxuries or a tax on the poor? Is it right?

You pay for sugar 100 per cent. more than it costs in European countries. Why? The Aldrich tariff is the answer, and the sugar trust is the beneficiary. This same sugar trust defrauded the government out of a million dollars by use of fraudulent weights, and some of its employees were jailed for the fraud.

President Taft said, "the woolen schedule is indefensible," and with the same reason he could have said, the cotton schedule, the steel schedule, the lumber schedule and the Aldrich rubber duties are indefensible. All of these things are of daily use and the cost of living is increased by the tax. Not one single schedule was revised on the basis of the Republican platform of protection to the American workingman.

During the making of the tariff, day in and day out, week in and week out, LaFollette, Doliver, Cummins, Bristow, Clapp, Beveridge—that little band of insurgent senators—fought for you and your interests. They lost but they did not surrender. They live to fight another day. They could not be tempted with federal patronage nor bullied with the loss of it. They fought on with unfaltering courage, yielding not, ever watchful, ever faithful. They were your representatives but they did not make the tariff law. Aldrich and his minions were drunk with power and greed. The representatives of the interests, Republicans and Democrats, combined to tax you and your necessities with a cruel and uneven hand.

Again the fight is on. This time it is your fight and you can say whether might makes right.

But do not forget this. If you believe in LaFollette; if you are going to vote for him; if you want to see him re-elected, look to your member of the legislature. He is the man to whom you delegate your vote. Will he abide by the primary? Is he right, will he be right, and will he be right all the time, not alone for Senator LaFollette, if nominated, but for you and your interests?

Read "Ask your Congressman" in "Everybody's" for August.

afternoon, glad to meet anyone who may wish to see him about the school. Information may also be had from Supt. F. A. Lowell.

It is suggested that young people who may wish to attend this school notify the Principal as soon as possible.

TOUR TO ANTIGO

Among those who journeyed in autos Sunday to attend the Rhinelander-Antigo base ball game at Antigo were Chas. Conro and his guest, Mr. Doane of Duluth, and Mr. and Mrs. Geo. Hilgeman accompanied by Mr. and Mrs. W. E. Ashton and daughter, Miss Maud. E. N. Morrill of Bundy and party also drove over in the Morrill machine.

NOT THE ORIGINAL

Messrs Hansen and Taylor were going to give the people of Rhinelander an opportunity to see the so-called Jeffries-Johnson fight pictures at the Bijou this week but just as they were to book the attraction learned that it was a fake reproduction.

Two dub fighters from the barrel house district of Chicago posed for the pictures, representing themselves to be the bolder maker and the colored champion.

Messrs Hansen and Taylor believe in dealing fair with the public and will not attempt to pawn off any hoax with the understanding that it is original.

CITY SCHOOLS WILL START SEPTEMBER 12

Buildings Are Improved and New
Courses Added to the High
School Work.

The city schools will begin Monday, Sept. 12 in all departments. Much has been done by the Board in repairing this summer. The high school building has had the walls retinted throughout and now is very presentable in appearance. A new floor has been put in the west side building and the building otherwise improved. All books used anywhere in the schools have been thoroughly fumigated and put in readiness for the opening of school. The sanitary drinking fountains now required by law have not as yet been installed but it is expected that the board will order them put in at their next meeting.

The high school courses offered are now arranged so that most any kind of instruction can be had. One can follow college preparatory work, take up practical work in manual training branches, or follow studies that lead more directly to a preparation for business. The manual training department is now thoroughly equipped and graded so that more and better work can be done in wood work, drafting, and iron work. Mr. William Schenke, a graduate of the Oshkosh Normal, will have charge of this department.

The commercial course, only partially introduced last year, has now been put in charge of Miss Myra Bucklin of Stevens Point Normal and a graduate of a Chicago Business College. The most thorough work will be offered in short-hand, type-writing, book-keeping, and other commercial branches. The work will be practical in every way.

Parents are requested to consult the principal and make suggestions as to the work they desire their children to take. In cases of poor health or immaturity, it is suggested that pupils take five years to finish the high school course. There is enough work to keep any pupil busy that long and in some of our best high schools the five year course is considered by far the best arrangement. While pupils are expected to do their work thoroughly, parents should not expect (in many instances) to overwork their children just merely to have them keep up to their grade. Health is much more to be considered than this.

In general it may be said, that more pupils fall in their school work from habitual absence and tardiness than from any other reason. Parents are requested to have their children enter at once and be regular and punctual in their future attendance. Pupils get little enough education generally, but while they are in school parents and teachers should cooperate to see that time is not frittered away and wasted. Try this and see if more cannot be accomplished for pupils.

KOLDEN DRY GOODS CO.

New Concern Will Conduct The People's Saving Store.

O. A. Kolden has been joined in the ownership of the People's Savings Store by P. L. Whittier, formerly of Crusoe's Dept. Store, and Mr. Hansen, a well known traveling salesman of Duluth. The partnership formed by the three men will be hereafter known as the Kolden Dry Goods Co.

The new company has made a number of improvements at the store. These include the installation of new shelving, an elevated office in the rear and the basement has been converted into a carpet and rug department.

Messrs Kolden and Whittier will be actively engaged in the management of the business. Both gentlemen are dry goods men of long experience and are well known to the trade. They form a good combination and there is no doubt that under their guidance the business will continue to increase.

Mr. Kolden has just returned from the city markets where he bought a large stock of fall and winter goods which are now being received.

Ray Lally is numbered among the sick. It was thought at first that he was threatened with typhoid fever but fortunately this proved not the case. "Moose's" many friends hope that he will hurry and get well.

NEARBY TOWNS

Antigo—Rudolph Valek, a Polish laborer, took his own life by the gun route. Valek, it seems, had tried to induce another man's wife to run away with him and unsuccessful in this effort he became discouraged and committed suicide.

Marinette—The citizens have invested \$5,000 stock in the Templeton-Barrett Company, Milwaukee, hardware manufacturers, and will locate the concern in Marinette, occupying a portion of the old Iron Works building.

Marshfield—Residents of the village of Auburndale and nearby country tell strange stories of seeing a wild man in the woods. They say he is attired only in rags and as soon as he sees any one approaching, will flee into the thick underbrush. The officers have made several efforts to capture him but with no success. The man is no doubt demented.

Oconto—In plain view of a large number of people Aksed Rulch, a young man, was drowned while bathing in Kelley lake. Rulch had just made a dive from an old boat, which drifted from his reach, and he sank beneath the water before help could reach him. He was probably stricken with a cramp. The body was found a short time after.

Grand Rapids—The four year old daughter of Mr. and Mrs. J. W. Walsch of this city was the victim of an attack by an angry cow. Before she could be rescued the animal along her railway tracks but in badly injured her. It is feared that blood poison may result from one of the wounds.

Ashland—Among the coming industries for this city is a new tissue paper mill. In their efforts to secure this plant for Ashland the business men have donated the sum of \$2,000 with which to purchase a suitable site. The money was raised by a subscription circulated by Judge Garvin.

Iron River—During the last six months Henry Moreland, a trapper of this county, has captured four genuine black foxes, three of which are alive. For the pelt of the fourth fox he has refused an offer of \$100.

Grandon—It now appears as though the Price factory will not move to Shawano but will remain in this city indefinitely. The people with

whom Mr. Price was negotiating for the removal of his plant to Shawano have so far failed to complete their part of the contract.

Tomahawk—Great preparations are under way for the old settlers' picnic to be held here on Sept. 5. Invitations have been sent broadcast to all people who ever lived in Tomahawk to attend this big event. The business houses in the city will be closed on the day of the picnic.

Ashland—The new rifle which was shipped to the Wisconsin Naval Militia by the Brooklyn navy yard, has arrived and is now being mounted at the naval reserve armory. The rifle is a 14 foot, 4 inch breech loading gun, number seven model and will be used by the Ashland boys in their target practice. The local officers have taken up the matter with the navy department and within a week there will be an officer sent to Ashland to teach the boys the rudiments of the mechanism of the gun.

Eagle River—For illegal fishing L. J. Doven of Sheridan, Ill., was fined ten dollars and costs. Game Warden O'Leary made the arrest. Doven had in his possession four size that together weighed less than one pound. He was also fishing without a hook and line license.

Hurley—The Stearns Lumber Co. is making preparations for the coming logging season. The company has been logging all summer and has been logging along their railway tracks but in the winter they operate in places that it is impossible to haul in during the warm weather. It is not expected that the cut on the Odonah reservation will equal that of last year as practically no contracts will be let to the smaller jobbers.

Clintonville—Clintonville has a sea serpent story. It is said that several citizens have seen the monster in the "Clover Leaf" lakes and some of them narrowly escaped being compelled to give the large and hideous thing battle.

Superior—Smoke said by the government weather officials to have been driven east from the great forest fires of Idaho and Montana, overhangs this city and entire vicinity, shutting out the sun and making necessary the use of artificial light in buildings. According to the statement of old inhabitants the smoke is even thicker than that which enveloped the city at the time of the Hinckley fires.

Prentice—Louis Carlson attempted to board a Soo line freight train as it passed through Ogema and he was thrown under the wheels and instantly killed. The accident occurred in front of the depot. Carlson was thirty-one years of age and was the son of Mr. and Mrs. John Carlson, prominent farmers of Price county.

FROM SICKNESS TO "EXCELLENT HEALTH"

So says Mrs. Clara Lyon, Peoria, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills."

MAY LOCATE HERE

E. J. Slossen spent Sunday among old friends at Escanaba. He was accompanied, home by T. J. Ellingworth, an old school mate from Warsaw, who is now a leading railroad man of that city. Mr. Ellingworth thinks strongly of locating in Rhineland, providing he can secure a suitable residence here or a lot upon which to build a house. He is a representative of the Boston & Maine railway and this city is as satisfactory for him for headquarters as Escanaba.

RHEUMATIC FOLKS

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive.

Don't dally with "uric acid solvents." You might go on till doom-day with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. The following testimony will convince the most skeptical Rhineland citizen.

Patrick Kelroy, Eagle River, Wis., says: "I suffered from kidney trouble and rheumatism for several years and at times I felt miserable. It began with pains in my back and sides, followed by a dull, dragging feeling that clung to me most of the time. My kidneys were inactive and the secretions were very unnatural. After trying various kinds of medicine to no avail, I got a box of Doan's Kidney Pills and began using them. They gave me prompt relief and I have steadily been getting better since then."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CONCERNING FIRE BUGS.

The address of State Fire Marshal Furtell on incendiarism last Friday before the meeting of the state paid firemen's convention at La Crosse, dealt with five classes of incendiaries as follows: The man who burns to get insurance; the man who sets fire for revenge; the criminal who sets a fire to cover some other crime; the fire maniac; the mischievous boy. For the last two classes Mr. Furtell expressed sympathy, but the other three classes, he declared, are the firemen's worst enemies and they deserve no quarter. He said: "Your energy must be bent to detect and punish them. The most contemptible of all is the man who burns to get insurance money. It is true that a jury will convict a man of murder, theft or robbery on circumstantial evidence, but hesitate to do so in arson cases."

This, he said, was wrong and the people must be made to see the evil of allowing the fire bug to go lightly.

Mr. Furtell concluded his address with an appeal to the assembled firemen to cooperate with his department in tracing the causes of fires, advising that in each city "a right kind of man" be assigned to that particular duty, leaving the chief to attend to his other duties.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

A big Labor Day dance will be given under the auspices of the Eagles at Woodruff on Saturday, Sept. 3. Posters advertising this event have already been distributed.

John Teeling has decided to remain at Merrill in charge of the Lincoln Hotel. Mr. Teeling had an offer to manage a hotel in Ohio but after a conference with the Lincoln board of directors concluded to stay at his present position.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by All Dealers.

Mrs. J. N. Webster arrived in the city Tuesday morning from Seattle, Wash., and will visit with her daughter, Mrs. O. E. Wood, before leaving for her home at Amherst. Mrs. Webster has spent the last year at Portland and Seattle visiting among relatives.

Dr. and Mrs. H. C. Hubbard of Caledonia, Mich., are guests of Mr. and Mrs. J. H. Morgan at 109 E. Frederick Street. They spent several days here last summer and the doctor, who is an ardent angler, took the opportunity to enjoy some of the fine fishing for which Oneida county is famous. He is again busy with the rod and reel and expects to land one or two big ones before returning to his Michigan home.

The trunk of a bridal couple topped off from a truck and fell on the track just in time to be smashed by an incoming train. The accident was caused by bundles of old shoes, tin cans, and other like decorations being tied to the trunk and since it cost the C. & N. \$50 to settle for the damage done, an order has gone into effect forbidding the railroad employees accepting in the future any baggage which is decorated in this manner. The enforcement of this rule will spoil a whole lot of alleged fun for the friends of newly married people, but it will save the victims a lot of embarrassment, besides protecting the railroad from further expense on this account.

What has become of the city dog catcher who was so active last spring? It appears that there are many worthless curs on our street as ever and despite all the complaints no one attempts to remedy the evil. Surely the police are not hired to act as dog trappers and it seems that if the city has a pound master who wants to earn his money he should get busy.

If you know or hear of an interesting item in the community make it a point to see that it finds a place in the local paper. Mr. and Mrs. Dave McRae of Ironwood passed through the city Saturday on their way to Appleton. Mr. McRae has just returned from the Canadian Northwest where he has secured a homestead. According to Mr. McRae's present plans he will move his family to the wilderness next June. He and his family are numbered among the oldest residents of the Iron ore city and it is hoped that he will not prove unwelcome, but leave well enough alone and stay in God's country.

TO GIVE BOXING CONTEST

Dick Kraemer and Kid Jennings Will Meet Here.

After having remained dormant for at least ten years the boxing game is to be revived in this city.

Some time during September Fighting Dick Kraemer of Menominee, Mich., and Kid Jennings of Hurley will put on a glove exhibition in Rhinelander. Both boys travel in the light weight class and possess more than average ability and speed. They are quite well known among the followers of the squared circle sport and will put up a classy show. Previous to the main bout there will be two interesting preliminaries between local talent.

Arrangements are also being made for a wrestling match on the same evening. The contestants will be George Carroll of this city and Frank Ra'ster of Cliftonville.

FOR ASSEMBLY To the Voters of Iron, Oneida and Vilas Counties:

I hereby announce my candidacy, on the republican ticket, for Member of Assembly for the 53rd district, comprising the above counties. If elected to this important office, I pledge the same careful attention to the interests of the district, as characterized my previous terms of service.

Respectfully, E. A. EVERETT.

Heart Trouble from Childhood

"I suffered with my heart from childhood," could not sleep on my side. Eleven bottles of Dr. Miller's Heart Remedy removed all these troubles, and brought complete recovery." MRS. H. C. CRUSE, San Francisco, Calif.

The life of the body is the blood. It runs on and on, carrying nourishment and gathering up impurities as long as life lasts—the heart makes it go. When the heart is weak it cannot do this, and dizzy spells, palpitation, short breath, indicate that it is doing its work imperfectly.

Dr. Miller's Heart Remedy strengthens the heart nerves and muscles, and restores normal action to the heart.

The first bottle will benefit; if not, your druggist will return your money.

THE PROGRESSIVE CANDIDATES

Following is a list of Progressive candidates. Read it often enough to become familiar with the names and the offices for which those named aspire:

For United States Senator—

Robert M. La Follette.

For Governor—

Francis E. McGovern.

For Lieutenant Governor—

Thomas Morris.

For Secretary of State—

James A. Frear.

For Treasurer—

Andrew H. Dahl.

For Attorney General—

F. T. Tucker.

For Commissioner of Insurance—

Herman L. Eckern.

For Congress—

Elmer A. Morse.

For Assembly—

D. B. Stevens.

In fairness to William Mitchell Lewis we wish to say he is a progressive, but we feel his candidacy is injected into the campaign to call the attention of the voters from the main question. The real question is, who shall rule the people or the special interests? If you wish the people to rule vote the above ticket.

President Taft now agrees with the progress that the Payne—Aldrich tariff law needs further reduction.

George Hambrecht, candidate for congress against E. A. Morse is a stand-patter, so big business is for him. He is a good man to vote against.

All the stalwarts in the last legislature opposed a bill to limit campaign expenses. They liked the Stephenson slush fund, many had a hand in it. The trusts are furnishing thousands to defeat LaFollette.

It would do no good to vote for LaFollette for U. S. Senator and not vote for D. B. Stevens for assemblyman. Mr. Stevens will support the candidate for U. S. Senator, who is elected at the primaries. Mr. Everett refuses to do so.

All the congressmen who were governed by Speaker Cannon and the special interests in the last congress are trying to explain their votes. Congressman Morse does not have to explain his; he voted against Uncle Joe and Uncle Joe's rules for the people. Vote for him primary day.

Colliers for August 20th contains a fine editorial tribute to the work and leadership of Senator LaFollette. Millions of people are watching the fight in Wisconsin to see whether the people will return him to the United States Senate or replace him with a representative of Wall street like Aldrich of Rhode Island or Lorimer of Illinois.

Jim Sherman—the same Jim Sherman that was the chief adviser of the recent stalwart convention in Milwaukee and now the Milwaukee Free Press says that President Taft has repudiated him for double dealing in connection with the New York losses to stir up strife between Roosevelt and Taft in defeating Roosevelt for temporary chairman of the New York state convention.

Ex President Roosevelt rebukes Vice President Sherman in his own home town in New York before twelve thousand people. The Ex President favors for state senator of that district the man whom Sherman opposes, saying that public officials should have decency combined with efficiency. Sherman is having hard luck, both Roosevelt and Taft repudiate him the same week.

Do not vote for any candidate unless you know where he stands on the important issues. All the stalwart candidates claim to be progressive and are trying to deceive the

voters. Make no mistake in voting. If you are in doubt as to which candidate is reliable ask a reliable progressive friend. Remember that Hudnall, Bancroft, Gunderson and Cleary are among the stalwarts and should be defeated.

California has a primary election law which went into vogue for the first time this fall. The people registered a protest against boss rule of the railroads and showed plainly that they could discriminate and choose candidates favorable to their own interests. New York state, as yet, has no primary law and see how the bosses tried to disrupt the Republican party by creating a Taft-Roosevelt quarrel. The people were not to blame but the stalwart bosses—the same ones so interested in the last congress in securing special legislation for "big business."

JAMES A. FREAR

The progressive candidate for the republican nomination for the office of secretary of state, James A. Frear is too well and favorably known throughout the state to require any introduction to our readers. He deserves to be, and there is no doubt but that he will be re-elected.

SHERMAN EXPOSED.

"President Taft in a letter to Lloyd Griscom, Mr. Roosevelt's emissary, denounces Vice President Sherman as a trickster who has deceived him and placed him in a false and humiliating position before the American people."

"Mr. Taft's denunciation of Vice President Sherman is without a parallel in American history."

This is the Jim Sherman who came to Wisconsin to bolster up the special interest or stalwart convention organized by railroad lobbyist Philipp.

"Francis E. McGovern stands before the people of this city, this state and this nation as a representative of honesty in public service." Robert M. LaFollette, in South Side Turn hall, Milwaukee, November, 1906. "I tell you fellow citizens that all over this land of ours there is a mighty contest on between corruption and honesty in government, and Francis McGovern stands as the representative of fearless, incorruptible honesty in the administration of the prosecuting office of the county." LaFollette at West Side Turn hall, Milwaukee, November, 1906.

Mr. McGovern is the Progressive republican candidate for governor at the primaries Sept. 6. You see what LaFollette thinks of the man. What think you?

Up to the present time no progressive candidate for re-election to congress has been defeated in any state while in Iowa, Kansas, California and in other states many stand-patter members have been elected to stay at home and their places will be filled by progressives. Wisconsin led in the fight for progressive principles and has been followed by other states. Senator LaFollette is everywhere recognized as the real leader of the opposition to organized wealth. Will Wisconsin turn down its great leader and abandon the work it has so nearly completed or will it continue to set the pace for others and encourage them with its example? It is up to the voters to answer this question.

WILL ABIDE BY PRIMARIES

Hon. D. B. Stevens will be bound by the primaries and follow the wishes of the people. This is fair and square and all any honest man can ask. His opponent will not be bound by the primaries, he refuses to obey the wishes of his constituents and this suggests that he will probably do as "big business" bids him. At the last session of the legislature Mr. Stevens worked as hard as a man could to get a Normal School for Rhinelander and vicinity. He didn't get the school but he made a fine impression upon the legislature and convinced the Board of Normal Regents that Rhinelander is the logical place for such a school.

The experience that Mr. Stevens has had will make it all the more important to elect him to take charge of this important task of securing a Normal School for this section. Mr. Stevens also wishes to see enacted industrial insurance laws that will give to injured workmen sums of money to reimburse them or their families for such injuries without the necessary expense of a law suit. He has given time and study to this industrial insurance and will prove a valuable man in the next legislature in its enactment. Besides all of this Mr. Stevens should be accorded the customary second term at the hands of the voters.

DON'T BE DECEIVED

Progressives should not be disturbed by any reports circulated at the last moment concerning LaFollette or any other Progressive candidate. It is expected that the opposition will distribute fifty tons of literature throughout the state the last week of

the campaign. In every preceding contest such literature contained falsehoods and misrepresentations. Wisconsin voters ought to be sufficiently forewarned not to be deceived by such canards.

Senator Geo. B. Hudnall, stalwart candidate for Lieutenant Governor is posing as a progressive and a friend of Senator LaFollette. Senator Hudnall made one straight progressive speech for the rate bill which passed both houses without one dissenting vote. On practically every other progressive measure he was more or less influenced by the counsel of Senator Whitehead, the stalwart leader. His partner, H. H. Grace, is a member of Connor's stalwart campaign committee and presented Hudnall's name at the recent stalwart meeting at Milwaukee. Senator Thomas Morris of LaCrosse, is the progressive candidate for Lieutenant Governor. See that he is supported. The Lieutenant Governor becomes the president of the senate and is a power in the legislature. If you favor LaFollette, vote for Morris.

MISREPRESENT LENROOT

Why is it that the subsidized press is so unmercifully misrepresenting the addresses of Irvine L. Lenroot. They are not attempting to refute his arguments but they are abusing his good name and trying to cloud his strong logic with vilification. The fact is no man in the state has been more uncompromising with wrong than Mr. Lenroot. Party solidarity has not deterred him from doing his duty as an official. Two years ago, he went out and told the people of his district that if he were nominated against Congressman Jenkins he would go to Washington and fight Cannonism and the interests. He was nominated by the largest majority of any congressional candidate of the state and has fought the interests as he said he

would.

No man in congress has made a better record than he. Although Mr. Lenroot has been in congress a single term he has clashed with Speaker Cannon and proved to his constituents that he is a master parliamentarian, and that party solidarity cannot swerve him from his duty as an official. The interests know that Mr. Lenroot is a damage to their cause; they know more that his logical array of facts hits their cause and so in return they turn their hirelings upon him and try to besmirch his good name but the people are fully aware of their methods and will govern themselves accordingly.

A WORD FROM HI HAWKINS

I've been thinking lately a little, and have been wondering why all these old politicians are so opposed to all that as progressives think is the right thing to do. They surely cannot find any fault with the laws that have been passed by the half-breed legislatures, for they are doing well, and have proved their worth in many ways, much better I think than we ever got when these old wise managers were in charge. Now don't we remember along in 1902 and '04 when the half-breeds were trying to improve matters this pack set their howl that the railroads would not make any more improvements in this state, and that thousands of employees would be discharged, and that we would let up on the railroads, or if we did not go a little easy on the insurance companies they would all leave the state and we would not get any insurance from any one, etc. It makes one laugh to think of that row and to think that these same pluggers are still trying to make the people believe in something of which they know is not so.

If I remember right Senator LaFollette had charge of some of those reforms and time has proven that he knew what he was doing when he insisted on certain things, and it goes to prove that he knows what he is doing when he backs up again some of the great wrongs he has discovered there in the United States at Washington, and I calculate we are going to send him back there again. My memory is not clear but I think it was Mr. Herman Eckern that had charge of the big lot of insurance bills in the house at that momentous time and he had to fight like Sam Hill to keep that big lot of smart lawyers that the insurance companies sent there from making laws to suit themselves but he won out, and every body says we have the best insurance law in our state of any state in the Union, and what I am trying to get at is, this same man Eckern is now a candidate for Insurance Commissioner and we want him there to see that these laws are properly administered, and not leave their management to a Mr. Clancy, who as we understand is the candidate that the big insurance companies are pushing for the nomination.

Now who is going to be nominated for governor? From what those who seem to know, say, the fight lays between McGovern and the old ring candidate Fairchild, and both of them are again county option. Lewis, who is for county option, and who is a good man don't seem to be in it, although he is spending lots of money. Someway since "Uncle Ike" debauched the voters two years ago with his confessed \$107,000 spent, I don't hanker after any candidate that thinks he can buy his own way into office.

It is either McGovern and honesty and reform in the managing of state affairs, or it is Fairchild and a return to the old condition of affairs

with big business in the saddle and the people "be damned". Which do you want?

HI HAWKINS.

D. B. STEVENS FOR THE ASSEMBLY QUESTIONS.

Has he an honor able record? Can you rely upon him to fulfill his pledges? Have we not some important local interests to consider? Is not the people's choice paramount to all others? Is it good policy to attempt to sacrifice your own citizen? Will it be a pleasure to inform the public that one of your best citizens is blacklisted, and denied a customary second term, and a foreigner given a third term? If these are fair questions, why are they to be ignored? Consider your best interests and vote for D. B. Stevens.

WHAT IT WILL BE

The announcement of the new owners of the Rhinelander Vindicator states that "This will be a Republican paper! The real Republican kind." There is nothing in the announcement to show that it has or will have any opinions of its own no great political questions; it will simply accept readily made the principles handed down to it from some higher source. Bosh! To say in these days that one is "simply a republican" is to show either disingenuousness or ignorance, or an unbounded conceit. Any one who knows anything knows that there is a conflict going on within the republican party between two sets of ideas, the "stand pat" idea, and the progressive idea, and he is a strange man indeed who claims to be intelligent and yet owns to no choice of sides in the conflict. Certain phrases in the paper is as "hyphenated brands of so called Republicans." "Self appointed leaders of political purification," etc., show that the paper is to be a "stalwart" republican paper. Why doesn't it say so?—Antigo Republican.

Wm. Gwald returned last night from his home at Richland Center where he was called three weeks ago by the illness of his wife whose death occurred one week ago. The friends of Mr. Gwald in Rhinelander sympathize with him in his sorrow.

Mrs. Walter Alexander and daughter Miss Ruth, and sister, Miss Libby Strobbridge, Taylor Alexander and daughter, Miss Florence, of Wausau, and Miss Margaret Dana of Milwaukee were guests at the home of Mrs. Kate McIndoe, Tuesday and part of Wednesday. The trip here was covered in Mr. Alexander's Pierce-Arrow touring car.

Oliver W. Stewart of Chicago, only prohibition member of the 43rd Illinois General Assembly, and the only speaker who according to the Chicago Record Herald, could get cheers from all parties, will speak at the M. E. Church Aug. 26, at 2:00 p. m. The public is invited.

HERE FROM MEMPHIS

Steve Belliel of Memphis, Tenn., is visiting his brothers, Chas. and Louis Belliel and old friends in this city. Steve is one of the oldest employees of the Washburn Screen Door Company and holds a desirable position in the company's big plant at Memphis. He is looking well and prosperous and the world seems to be dealing kindly with him.

INDIANS ARE COMING

Owing to the disgust of the Antigo base ball fans over the Rhinelander victory last Sunday the base ball team of that city has disbanded for the season. Therefore Manager Belliel has secured the Odanah Indians to take the place of Antigo in the game scheduled for next Sunday. The Indians have a fast team having defeated the Chicago Union Giants recently by a score of 10 to 8. A most exciting exhibition is predicted.

FOR GAME WARDEN

The State Civil Service Commission will hold a general competitive examination on Saturday, Sept. 10, for the position of game warden in the Thirtieth Senatorial District. This district is composed of Iron, Oneida, Lincoln, Langlade, Forest, Florence and Vilas counties. Persons interested should write immediately to the State Civil Service Commission at Madison, Wisconsin, for information and application blanks.

IS DOING GOOD WORK

Advancement Association Bringing in Many New Settlers.

The Wisconsin advancement association which comprises in its membership men from all over the state who believe that our resources should be developed along rational lines, promises great results. While at first flush it may appear that this association is merely a land owners' movement, such conclusion would be far from the fact. While the bringing of people and capital to the state is the most apparent and obvious feature of the program of the association, the fact remains that the most serious question now before the people is the conservation of our present population and capital and showing both that there is within the state unequalled opportunity for the investment of labor and money. There are many problems to be solved, looking to the more speedy and successful development of our idle lands. It is a fact, made apparent at all meetings of landowners, that the thought uppermost in their minds is the success of our new settlers, and next to that, but always subordinate to it, the getting of more settlers. Discrimination is constantly urged in order that our new settlers may be only those who will succeed. It is the unanimous opinion that we want only successful and contented settlers.

CLOSE CALL FROM DROWNING

John Olstrand Is Thrown From Boat Into River.

John Olstrand, a town of Pelican farmer, had a close call from drowning Saturday while guiding a raft down the south branch of the Pelican river.

The float turned turtle and Mr. Olstrand was thrown into the water. The raft above prevented him from getting to the surface, and he was held a prisoner.

Fortunately Mason Miller and Jas. Ernest, who were cutting hay along the river bank, witnessed the accident and hurried to Mr. Olstrand's assistance. It was ten minutes before he was taken from the water and to all appearances life was extinct. Messrs. Miller and Ernest worked over the unconscious man for half an hour before he came to.

NEW TRAIN PROMISED

Late next winter or early in the spring a passenger train will be put in operation on the Ashland division leaving Appleton Junction at about noon each day for Antigo, Wausau and other points in the northern part of the state.

Promise of this added service has been received from the general passenger department of the Chicago and Northwestern railroad, and is a direct result of the agitation and consistent work of the United Commercial Travelers' council representing between 900 and 1,000 traveling men throughout this part of the state.

Miss Vera Whiting returned Tuesday from a visit with Mercer friends.

NEW JERSEY CITIZEN GETS INTO TROUBLE

William Dusel of Newark Is Arrested Here For Alleged Wife Desertion.

Acting on information from the police of Newark, N. J., William Dusel, charged with abandoning his family in the eastern city, was arrested by Chief of Police Straub in Rhinelander last Friday.

A short time previous to making the arrest the chief had received a telegraphic description of the man who was known to be in this city. The officer, having seen Dusel several times during the week, easily identified him from the Newark description as the man wanted there and soon took him into custody.

It was not known at first the nature of the charge against Dusel but at the county jail he became quite talkative and informed the chief that he had a wife at Newark whom he had not lived with for a considerable length of time and it was probably on her complaint that he had been arrested. He said that the woman was so disagreeable at times that he found it impossible to reside under the same roof with her and had been forced to leave home.

Dusel also had in his possession letters which he had received from his wife, while in this city, in which she stated her love for him and expressed a desire to add him financially. The woman is said to be worth at least twenty-five thousand dollars.

Before coming to Rhinelander Dusel had been at Minneapolis and other western cities for several months. As there is generally two sides to a story it is thought by many people here that the young man is not wholly to blame for the charge against him but is rather the victim of circumstances. He is a well appearing fellow, an intelligent talker, and gives no evidence that he would intentionally do a wrong.

Detective Godfrey of the Newark force arrived in the city Tuesday and left that evening with his prisoner for Newark.

In causing the arrest of Dusel Chief Straub again demonstrated himself to be an efficient, ever alert officer.

A large number of Rhinelander people attended the Ringling Brothers' circus at Wausau, Saturday. All who witnessed the big show claim it the peer of all tented amusements.

MINING MEN TO GARY

Special Train From Ironwood Goes To Steel Town.

A special train bearing the members of the Superior Mining Institute passed through the city over the Northwestern railway enroute from Ironwood to Chicago and Gary Indiana, Tuesday night.

In the party are all the big mining men of upper Michigan. They had just completed their annual meeting at Ironwood and were going to the Hoosier town to inspect the big plant of the Indiana Steel Company. They also intended to spend several hours at Chicago and while there will partake of a banquet at the Auditorium Annex. They will also be driven about the city as the guests of the mining corporations and will have a good time in general.

EXCURSION TO SUGAR CAMP

S. H. & E. F. Lodge Will Have Big Time Next Sunday.

The members of S. H. & E. F. of a lodge of this city are planning for a big excursion over the Robbins railway to Sugar Camp next Sunday. The train will leave the Robbins mill yard at 9 a. m. sharp.

At Sugar Camp a grand picnic will be held. There will be all kinds of amusements, including a base ball game between the barbers of this city and the Indians. This game promises to be even a hotter contest than the battles between Rhinelander and Antigo. The Indians, it is reported, have a strong team and intend to give the classy chin scrapers a hard trouncing.

The Rhinelander Military band has been engaged to furnish music during the day.

Arrangements have been made to carry at least five hundred people to the lake and perhaps many more than this number will attend.

The Scandinavian lodge boys are jolly entertainers and they will see to it that their guests have a pleasant time. Refreshments will be served on the grounds.

AUTOS GO TO MERRILL

Mr. and Mrs. R. C. Dayton and son and Mr. and Mrs. S. H. Ashton were at Merrill Sunday. They made the trip in the Dayton car.

Mr. and Mrs. Wm. Eibel, Miss Brower and Mr. and Mrs. E. C. Sturdevant were at Merrill Sunday in Mr. Eibel's automobile.

An auto party consisting of R. F. Tompkins, E. D. Sterling, J. Segerstrom, Clinton Hansen and Joe Daniels drove to Merrill Sunday, where they spent the day.

BIG LUMBER SHIPMENTS

Lots of Hardwood and Hemlock Cut
in Wisconsin.

R. S. Kellogg, secretary of the
Northern Hemlock and Hardwood
Manufacturers' Association, has re-
cently issued statistics showing the
cut and shipments of lumber and
hardwood for the month of July, 1910.
Reports have been received from six-
ty-four members showing the total
production of hemlock to be 42,867,
000 feet. Only fifty-one firms re-
ported shipments which totaled 30,
647,000.

The showing for hardwood is also
quite satisfactory, considering the
season of the year. Those manu-
facturing hardwood report a produc-
tion of 15,571,000 for the money with
shipments of 15,193,000.

The hemlock cut was no greater in
July than the previous month, but
the hardwood manufacturing in July
was only about two-thirds of that of
the previous month. Hemlock ship-
ments for July about equalled the
shipments for June, an especially
good showing for a midsummer
month.

Cut and shipments for the past
seven months have been as follows:

Month	Hemlock Reports	Hemlock Cut Shipped	Hardwood Cut Shipped
Jan.	45	8,713	12,252
Feb.	51	12,921	21,238
Mar.	59	6,320	20,314
Apr.	50	24,116	35,131
May	62	41,746	34,994
June	50	43,332	30,357
July	64	45,775	30,677
TOTAL	484	187,084	181,620

HORTONVILLE HAS SENSATION

For a long time the Chicago &
Northwestern company have been los-
ing a vast amount of goods, stolen
from cars at Hortonville and vicinity.
About two weeks ago a detective ap-
peared at Hortonville and a short
time afterwards arrested Henry Smith
taggageman at that station. Smith
was placed in jail and a search of
his and other premises revealed a
large amount of the stolen goods. It
is said that Smith "squealed" and
as a result several other men at
Hortonville and Kaukauna, all rail-
road men, have been placed under ar-
rest. It seems singular that railroad
men would stoop to rob the company
of goods in this manner. If they
are convicted it will go pretty hard
with them.

FOR INSURANCE COMMISSIONER

Herman L. Ekern, Deputy Insurance
Commissioner, who has done so much
for the people of Wisconsin in getting
laws passed protecting their interests,
is now a candidate for the office of
Insurance Commissioner. Mr. Ekern
must get his votes from the people
whose interests he has safe guarded.
Every one interested in just insurance
laws and their just interpretation
should support Mr. Ekern.

ANOTHER BIG ONE.

On August 14, C. M. Dickson of
Chicago caught a twenty-seven pound
muskallonge in Pelican Lake. So
pleased was Mr. Dickson with his
luck that he decided to remain at
Pelican a few more days with the re-
sult that on August 19 he caught a
"muskie" that weighed fifteen
pounds. On July 24, A. S. Carstens
of Chicago landed a muskallonge that
weighed twenty pounds.

SCORE IS 0 TO 0.

There was a base ball game at
Sugar Camp Sunday between a pick-
ed team from this city and the Chip-
ewa Indians. The score was 0 to 0.
Those who witnessed the game claim
it one of the best exhibitions of
the national pastime that they had
seen this season. W. C. Lieb-
enstein acted as umpire to the satisfac-
tion of all concerned.

ANTIGO ONCE AGAIN MEETS WITH DEFEAT

Score in Sunday's Contest is 8 to 4
In Favor Of The Rhinelander
Team.

Once again were Rhinelander's
most bitter rivals for base ball hon-
ors compelled to bow down to the
ignominy of defeat in a hard fought,
uphill battle, when Belle's ferocious
pets journeyed into the enemy's coun-
try last Sunday and captured the
game by the score of 8 to 4.

Otto Walsh, a director of the An-
tigo base ball club assayed to perform
the difficult duties of arbitrator of the
contest and managed to break into
the line with a couple or more
of weird, ghastly decisions that came
close to the verge of abruptly termi-
nating the contest in Rhinelander's
half of the second inning, the concili-
atory attitude of the ball players of
the opposing teams, finally led to the
resumption of hostilities after the
"Umps" graciously condescended to
reverse the rulings, which had
brought about the tumult. Despite
the one sidedness of the score, the ex-
hibition proved to be a most interest-
ing contest, by reason of the fact
that Rhinelander pluckily came up
from behind, overcoming a handicap
of four runs, which Antigo acquired
in the opening session, and prevent-
ing their opponents from further
finding their way into the run col-
umn during the remainder of the
game. A considerable element of luck
or to be more explicit, a series of stu-
pid, ivory headed base running on
the part of the Antigo team, in the
eighth inning entered largely in the
messenger of victory being carried
back to Rhinelander, combined with
the effective twirling of pitcher Hut-
chinson after the first inning and the
splendid support afforded him.

"Hutch" had a shade the best of slab
honors over his opponent, as he yield-
ed only four hits to Southpaw Holtz's
seven, three of the four safeties hav-
ing been gathered in the disastrous
first.

One of the most freakish plays ever
perpetrated on a base ball diamond,
with Antigo, as the victims was con-
summated in the eighth inning, when
Antigo had two men on bases, with
none out and a fly was raked to Cliff-
ord in left field who muffed the ball,
ultimately resulting in a triple play
and retiring the side scoreless. Brill-
iant fielding stunts by the Rhine-
lander boys staving off possible runs,
featured the contest, Jastram at
third shining out as the bright par-
ticular star, while O'Melia at first,
played the bag in splendid fashion.
Rhinelander was retired in one, two
three order in the opening round
after O'Melia had been given
free transportation to first, took
second on Ryan's sacrifice and on
Kraemer's out to left, fairly burned
the path in a mad dash for third; a
real piece of daring base running.
Post's out retired the side. Antigo
did all their execution in the initial
inning; both Baker and Kromer
working their way to first on wide
balls. E. Flanagan advancing them
to second and third, while Liebb sent
the pair home on a double to left. A
single by Kane brought Liebb to
third, although the former took sec-
ond when Clifford threw to the plate
and headed Liebb from coming home.
An out, Kraemer to O'Melia counted
Liebb and Zellmer's scratch along the
third base foul line brought Kane a-
cross the counting station. Zellmer
was nabbed stealing second; Post to
Kraemer, four runs.

Jastram started the second with
base on balls and Liebb's toss of D.
Flanagan's roller to Crouch saved
both men. Jastram was forced at
third after Holtz messed Clifford's
pump pop. Bies' out advanced
both and "Hutch" registered the two
runners when Liebb permitted the
pitcher's grounder to pass between
his underpinning, two runs.

Rhineland annexed an additional
run in the fourth, when Crouch foo-

zled Jastram's grounder. Clifford's
triple scored Flanagan who had forced
Jastram at second. Clifford per-
ished at third, as Bies fouled out and
Hutchinson was retired on a neat
play at first.

Crouch coming from second to cov-
er the bag. One run.

The fourth inning saw Rhine-
lander forge to the front with a rush,
when Post singled cleanly to cen-
ter; an error on Jastram's sacrifice
gave both a life and Post counted
when Crouch threw wildly to third
after Jastram stole second; Crouch
ralsplayed Flanagan's grounder, al-
lowing Jastram to slide into third
in safety from where he was squeez-
ed across the pan on Bies' perfect
bunt that nobody just could field:
Flanagan going to third. The latter
was retired at home when Hutchin-
son rolled an easy one to Holtz. O-
Melia grounded to short. Two runs.

An error, a sacrifice, a single to
center by Bies, a wild heave by
Crouch, the second error of the in-
ning, O'Melia's double to right, while
Ryan delivered a single to center, re-
sulted in Flanagan, Hutchinson and
O'Melia coming home with three ad-
ditional tallies in the eighth. Three
runs.

ANOTHER SAW MILL

Antigo Lumber Company May Move To This City.

The Antigo Republican is authority for the statement that the Antigo Lumber Company is considering leasing operations at that city and will hereafter cut its lumber in Rhinelander. Should this prove true it will mean employment for from between fifty and sixty more men in this city.

The reason for the supposed change is given in the Republican as follows:

"The Robbins people of Rhinelander have a well equipped mill there, all ready for use, but which they have not used for, and this they offer to the Antigo Lumber Co. for a great deal less than a new mill could be built here for—probably around 60 per cent. of such cost. They estimate that with this mill they can cut up their timber in about three years, while with a mill that they could put up here for the same money it would take a five or six years. The cost of getting the logs to the mill would be about the same at either place."

MR. DAHL'S ANNOUNCEMENT

I hereby announce my candidacy for the office of state treasurer on the republican ticket, subject to the approval of the voters at the September primaries.

During the past four years I have attempted to the best of my ability to conduct the affairs of the office of state treasurer strictly along business lines. I have tried to render prompt and efficient service to the people of the state, with the minimum amount of office force and expenses, and the least possible red tape—in fact I have conducted the affairs of this office as I would my private business.

If I should again be honored with another term, I feel that my experience will enable me to further improve the service, and to this end I pledge my very best efforts.

If my services have been satisfactory, I respectfully solicit your support at the primaries on September 6th next. Yours very truly,

ANDREW H. DAHL
Madison, May 19th, 1910.

THEY HAVE A DEFINITE PURPOSE

Foley's Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble, and spending much money for so called cures, I found Foley's Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them."

NOT BASE BALL DANCE.

Manager Belliel of the Rhinelander base ball team wishes it distinctly understood that the dance advertised as given by the ball team is not a team dance but merely an affair given by a few members of the club for their own benefit.

Mr. Belliel says that the dance was arranged for without his knowledge or consent and people who purchased tickets for the same are not assisting the team but only a few of the players.

STATE HIGHWAY DIV. MAKES BIG STRIDES

Miles Of Roads And Many Bridges Completed Under Division's Supervision.

Three years ago the Highway division of the Wisconsin Geological and Natural History survey commenced its work of giving free engineering advice to towns in the state contemplating road or bridge improvement. The first year was spent in organizing a force and making the work known to the people of the state by demonstration roads, speeches and literature. By July 1, 1908, the work was well under way, and since that time remarkable results have been achieved.

The two year period ending July 1, 1910, shows the following work done by the four engineers employed in this work. Two hundred and fifty-seven public speeches made in fifty-three counties; one hundred and fourteen inspections made in thirty-two counties; ninety road surveys totaling sixty-five miles in length made in twenty-six counties; two hundred and twenty-seven bridge inspections made in sixty-four counties; one hundred and thirty bridges costing about \$175,000 built under the division's plans in forty-two counties; \$140,000 worth of road construction done under the division's plans.

In addition to the above, much road and bridge construction has been done under the advice by letter or direct from information contained in road pamphlets issued by the division, which is not included in the above summary.

Considering the fact that the local officials always voluntarily avail themselves of the help of the division, as assistance is only furnished on request, the above showing demonstrates the fact that there is developing a real demand for skilled advice in road and bridge construction in this state.

LITTLE BOY IS DROWNED

Sad Accident Occurs At a Lake Near Minocqua.

Joseph, the eight year old twin son of Mr. and Mrs. Jas. P. Molloy of Chicago, who own a summer home "Hazel Grove" near this place, was accidentally drowned last Sunday afternoon.

Mr. Molloy started to return to Chicago, Sunday afternoon after having spent the day with his family, and upon the return of those who had taken him over to the train it was discovered that the little boy was missing. A telegram was immediately sent to Molloy which caught him at Wausau, when he hired a special train to return home, arriving about 10:30 that evening. In the meantime diligent search was made both through the woods and one lake by a large crowd, and about 2 a. m. the body was found under the dock in about fifteen feet of water. The supposition is that Joseph had slipped and fell while endeavoring to get into the launch and being alone and unable to swim was unable to get out.—Minocqua Times.

ACUTE OR CHRONIC—WHICH?

No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me."

TAKE LONG CANOE TRIP

Rhinelanders Boys To Cover 175 Miles On Water.

A canoe trip of one hundred and seventy-five miles is the mode of recreation in which two Rhinelander boys, "Beaver" Crosby and Lewis Crusoe, are now indulging.

The boys launched their canoe in the waters at Three Lakes Tuesday and will paddle through the long chain of lakes into the Wisconsin river and down that stream to Rhinelander.

They will camp and fish along the route and by thus taking their time expect to reach home within ten days. J. J. Reardon, who has frequently covered this same trip, says that the distance from where the boys started to this city is about one hundred and seventy-five miles.

The journey is one which will be hugely enjoyed by the boys, both of whom are fond of out door life.

IN THE COLD, GREY DAWN

In the cold grey dawn of the next day after, when you've had your house full of mirth and laughter; and the tables untouched stand the whole night long, while the floors look littered and wrong. 'Tis then you're forced that your floors are right, and it's easy to clean up and make things bright for you know that it's easy to straighten a room,—where Chl-Namel is used all you need is a broom. And the mark, of the party and mess that remains can be quickly removed, and you're tidy again. Alcohol, hot liquids and hard knocks leave no impression on surfaces finished with Chl-Namel Varnish. All colors and all sized packages. Sold by—M. C. Wood Hdw Co.

STEVENS IS THE MAN.

The sentiment throughout this district favors the reelection of D. B. Stevens to the assembly. During Mr. Stevens' service as a member of the legislature he has looked after the people's interests well and faithfully and for this reason the voters are going to return him to Madison.

COME to the Social Democrats' local meeting Wednesday evening at Labor Hall, over S. D. Nelson's store, and find out how the party's affairs are run, and also bring along your questions and objections. Meetings always open to the public and admission free. A new topic discussed every meeting.

Out of town people are cordially invited.

Congressman Morse States His Position

The people in this district are entitled to know where I stand on public questions, and I shall try to make my position clear. I am a Republican and have worked faithfully for the fulfillment of all party pledges.

I believe the Republican party is progressive to the core, and I want it thoroughly understood that I am not a stand-patter in any sense of the word.

The Republican party was born to make men free from slavery, and I believe that there is vitality enough in it still to free this generation from the aggressions of Trusts and the oppression of Monopoly, and to protect the remainder of our natural resource from being plundered by the favored few to the detriment of the many.

I am opposed to that baneful blight called Cannonism, and I will fight against the whole system, and will not bind myself in any secret caucus to support Mr. Cannon or any other Representative of this system as Speaker of the House of Representatives. I voted against him before and I will do it again if I am re-elected.

I believe in being loyal to party and to party platform, but I believe that I can serve my party best by serving my people best, and I place loyalty to the interests of my district and my country far above any loyalty that I might owe Mr. Cannon or Senator Aldrich.

Two years ago you sent me to Congress pledged only to your interests. I went then, a free man wearing the tag of no Special Interest, responsible to no man or group of men for my election, and answerable only to my conscience and the people of my district for my actions. I have voted independently and fearlessly and tried to be truly representative of all.

I believe that you want as your Representative in Congress a man who will represent your interests, who will not answer the crack of the party whip, nor be bound by secret caucus, nor be bluffed by the loss of patronage if bought by the promise of it. Therefore I solicit your votes.

Very truly,
E. A. MORSE.

NEW COURT HOUSE ACCEPTED
Building is Completed and Ready For Occupancy.
The Onelda County building committee consisting of Arthur Taylor, District Attorney Miller, Henry Wubker, Thos. Bolger, Wm. Whipple and A. W. Brown met yesterday with the architect, C. H. Tegen of Manitowoc and contractor, A. M. Rickman of Kalamazoo, Mich., to accept the new court house which has just been completed.
The building is one of the finest structures of its kind in the state, considering the amount of money it costs, and stands as a fitting monument to the thrift and enterprise of the citizens of Onelda County.
When a move was on foot to erect a new court house, strong opposition was made by certain citizens but we now believe that those who opposed us in this matter are willing to acknowledge their error. We believe that the people of the city and county are all united in their unbounded pride in this beautiful and substantial new structure.
The building was given an extended write up in a previous issue of this paper and we deem it unnecessary at this time to go into further detail.

WANTED TO SEE WORLD
Mattoon Boy Runs Away and Comes To Rhinelanders.
Inspired with a longing to see the world Frank St. Peter, a little Mattoon boy, aged ten years, left his home at that village and journeyed to Rhinelanders where he was taken in by the police. The young "globe" arrived here last Friday and for the officers, having been notified to the look out for him, took him in charge.
According to the story which Frank told to Chief Straub he was compelled by his parents to pick berries, and objecting to this not altogether pleasant task, decided to run away and see what the country looked like beyond Mattoon. He sold several quarts of berries which he had picked Thursday and with the money purchased a railway ticket to this city.
Knowing that he had headed this way Frank's people asked the officers to detain him. The boy was returned to his home Friday forenoon by Wm. Whipple.

John Cassidy and family passed through the city Monday on their way from Toronto to the province of Alberta, where they will locate on land which Mr. Cassidy recently purchased.
Ten years ago Mr. Cassidy stayed three days in Rhinelanders and while here at that time he walked about the city noting the many business blocks, residences and dwellings. On his second trip Monday he was surprised to note the numerous changes which had taken place in the city during those five years and he honestly expresses his opinion that Rhinelanders is one of the most enterprising and progressive towns in north west Wisconsin.

PRESIDENT CETS IN LINE
The President outlines a policy of early action, of further revision, without danger of general agitation and disturbance.
It will be remembered that the Iowa insurgent platform recommended "piecemeal revision" without opportunity for log-rolling, trading and indiscriminate "ripping." Thus the President and the insurgent leaders have reached a common—and most sound and secure—platform on the tariff question.
On this the whole country may be congratulated. As for the Republican campaign, how much better this keynote utterance is than the Winona speech the standpatners threatened to circulate "defiantly"—Chicago Record Herald.

Anything you want to buy or sell? Just place a few lines in the want column—that will do the trick.

PRETTY CHURCH WEDDING
Mahoney-Flatley Ceremony is Performed Tuesday Morning.
At nine o'clock Wednesday morning Rev. Father Rutter united in matrimonial bonds Miss Gertrude Mahoney and Mr. Patrick H. Flatley, both of this city, the ceremony taking place at St. Joseph's church.
The wedding was a pretty one and was witnessed by a large number of friends of the happy couple.
The attendants were Miss Josephine Quinlan and Mr. James O'Malley. Edie Cain acted as ring bearer and Luella Schelsmann and Anna Gleason were the little flower girls.
The bride was charmingly attired in a gown of charming white crepe over Alpa chiffon, draped with Greek folds and satin rose buds. She wore a veil of soft elusion edged with Irish point lace and carried a white satin prayer book with a pearl rosary.
Miss Quinlan wore a gown of pink Venice lace and carried pink American roses.
The church decorations were beautiful. Lilies and ferns were in evidence and the pews were trimmed with white satin ribbon.
After the ceremony the party, repaired to the Rapids Hotel where forty guests partook of breakfast. The dining room was trimmed with ferns and sweet peas decorated the tables.
Mr. and Mrs. Flatley left Wednesday afternoon on the Northwestern train for an extended tour of Duluth, Minneapolis and New York City. Returning to Rhinelanders they will commence house keeping on Stevens st.
The bride is the daughter of M. Mahoney and is numbered among the city's fairest young ladies. She possesses rare talent as a musician and has frequently been heard in public in this city. Among her large circle of friends she is highly regarded.
Mr. Flatley holds a position as road master on the Soo railway. He is a man of sterling character and one who commands the esteem of all who have his acquaintance. His choice of a life partner demonstrates his good judgement.
To Mr. and Mrs. Flatley best wishes are extended.

RAIN AND LIGHTNING
Severe Electrical Storm Visits City Yesterday Afternoon.
This city and vicinity was visited by a severe electrical storm yesterday afternoon.
There was a series of sharp lightning flashes which struck in different parts of the city, although rendered but small damage. At the residence of O. A. Kolden, on north Stevens street, the lightning struck the upper part of the building but did only a few dollars worth of harm.
It was the Rhinelanders Telephone company that felt the shocks—the worst. Many of the phones were put out of service and the repair men have since been kept busy.
During the storm much water fell. The sky became so black that it was necessary to use artificial light throughout the city.

ROONEY MAKES GOOD
Frank Rooney is evidently making good with the Oshkosh Indians as the following from the Northwestern would testify.
The Indians have a winning streak again. They won a game yesterday. Frank Rooney pitched a magnificent game, having the best of Bill Kirwin all the way.
Frank Rooney did the pitching for the Indians and made the better of Kirwin, the southpaw phenom, fanning ten of the visitors and allowing six scattered hits. The boy wonder was strong in the pinches, and crawled out of several tight holes. He deserved a shoutout, as an error by Croh gave Campbell life on first in the sixth inning when Campbell counted the Mudhens' only tally.

SAYS HE IS INNOCENT.
Herald S. Neel, known among railroad men in this city and arrested as an alleged fugitive from justice, has been released under \$2,000 bail at Eau Claire. The charge against him is made by the Soo railway company, and alleges that he obtained money on forged claims while claim agent of the road. He says that he can easily clear himself of the charge.

LIKES THE SOUTH
In a letter from Sumpter, Alabama, J. Séguine wishes to be remembered to all his old Rhinelanders friends. Jesse is a cook who for a number of years was employed by lumber companies in this vicinity. He is now working at his calling in the southern state. He likes the south very much, but still has a strong feeling for Rhinelanders and states that when he has made his little pile of American dollars he will return here to live.

CROPS ARE GOOD
The farmers say that regardless of the long dry weather of the present summer the crops in Onelda County are not bad.
Small grains are about of the average yield and the potato crop will be fair.
There will in all probability be the usual display of exhibits in the agricultural department at the county fair this year. The farmers are planning for this event and the biggest pumpkin and tallest ear of corn will again be seen in the vegetable hall.
